

2017 Available Drive Times

We will be utilizing a scheduling survey application that should allow us to pair off students with different drive partners based on the student's specific availability. Because of this drives may vary from 2 hour sessions (1 hour each student) to 3 hour sessions (1.5 hours each student).

Some flexibility is anticipated as there should be more times than students for this class.

What should I expect?

After registering for the course you will receive an email inviting you to complete a scheduling survey. The survey will allow you to select one of three options: Yes, (Yes) *yes if need be*, and No. **PLEASE, select as many of the days and times that you would be available for** to improve the scheduling options for your lessons.

ODOT Requirements: Students cannot drive for more than 1.5 hours a day or 2 hours in a rolling 1 week period. Students can observe for up to 3 hours in a day. We must take this into consideration when assigning you drive times. These requirements may pose a significant challenge if students are not flexible with their availability.

When do driving lessons happen?

*If you do not have to be in school during normal school days we can arrange drives any day or time of the week when available. Please comment on your survey if you are available during the day on school days.

General availability for driving lessons:

- Mondays & Fridays after school
- Tuesdays & Thursdays after school and before class
- Saturdays & Sundays all day
- All day during school breaks (i.e. winter break, spring break)
